EXPERIENCE

Frontend Software Developer

January 2023 – Current

Octosoft Technologies Ltd

Lagos, Nigeria

- Contributed to the development of Octodoc, an EMR and Health Information System for healthcare providers.
- Collaborated with back-end developers to integrate user-facing elements with server-side logic, ensuring seamless functionality and optimal user experience.
- Designed and developed modern, user-friendly web applications using forward-thinking approaches.
- Diagnosed and resolved bugs and issues, ensuring the app was stable and performant.
- Maintained and optimized code, and performed unit and integration testing to ensure the highest level of quality and reliability.

Microsoft Azure Database Administrator Intern

November 2021 – February 2022

Stanbic IBTC Digital Skill Empowerment Program

Lagos, Nigeria

- Deployed and configured servers, instances and databases for Azure SQL.
- Secured data with Azure SQL, masked data, and managed security with Microsoft Defender for cloud.
- Delivered consistent performance with Azure SQL using indexes and intelligent performance features.
- Deployed highly available solutions including configuring auto-failover groups and geo-replication for Azure SQL.

- Collaborated with Front-end developers to integrate user-facing elements with server-side logic.
- Designed and developed modern APIs (RESTFUL) that integrate with server backend.
- User authentication and authorization between multiple systems, servers, and environments.
- Diagnosed and fixed bugs.
- Maintained code and performed unit and integration testing to ensure the app was of the highest quality.
